# Ivan Chaplinskyi

Full-Stack/Shopify JS Developer  
Ukraine

## Summary

Front-End and Shopify Developer with more than 3 years of experience, having in-depth knowledge in front-end development and store customization on the Shopify platform. Able to create aesthetically pleasing and highly functional websites that meet client requirements and market standards.

My goal is to develop and improve my skills in Full-Stack and Shopify development, bringing innovation and a high level of professionalism to the projects I work on. I intend to further deepen my understanding of modern technologies, improve the efficiency of workflows, and provide high-quality solutions for clients.

In particular, I aim to develop my skills in Full-Stack development, using the latest technologies and frameworks to create intuitive and aesthetic web interfaces. In the field of Shopify development, I plan to deepen my understanding of the platform and implement best practices to create efficient and successful online stores.

My goal is to create products that not only satisfy customers' needs, but also impress them with high quality, speed, and user experience. I believe in continuous self-improvement and teamwork to achieve common goals and further development in the field of web development.

## Skills:

### Front-End Development:

Strong knowledge of HTML5, CSS3 and JavaScript.

Experience with popular library such as React.js.

Ability to create award-winning, responsive and cross-browser websites.

### Shopify Development:
